

# MTN Worldwide TV

## Offers the Only Licensed Global Television Program Offered at Sea.

- MTN Worldwide TV is the world's first fully digital, fully licensed, multi-channel television service delivered globally to the maritime industry.
- One convenient monthly fee delivers five live channels plus a special events channel.
- With MTN Worldwide TV give your crew the ability to stay informed and entertained — keeping crew morale high and improving productivity.

MTN Worldwide TV from MTN Satellite Communications enhances crewmembers' Quality of Life by keeping them informed of global events as well as keeping them in touch. MTN provides an advantage to vessels by delivering a selection of news and information to an audience hungry for program diversity.

MTN Worldwide TV is the world's first fully digital, fully licensed, multi-channel television service delivered globally to the maritime industry. Through a unique channel package, MTN delivers the best in news, entertainment, and documentaries providing unrivalled quality programming. For one low monthly fee MTN delivers five live channels as well as equipping the vessel with an additional "special events" channel which can be used to broadcast sports or other events when available (additional pricing will apply).

With MTN Worldwide TV, you can give your crew the ability to stay informed and entertained, keeping crew morale high and improving productivity.
